2026 Irrigation Season

We will start putting water in the systems starting:

- **West of I-15: The week of April 27**
- **East of I-15: The week of May 4**

Allow most of each start-up week for the system to fully fill.

No Water Use Until May 15th

To help prevent flooding turn your control valve off by:

- **West of I-15: April 24**
- **East of I-15: May 1**

⚠ **DO NOT ACCESS THE METER BOX**

Drought Restrictions

Due to dry conditions and low snowpack this year, the following restrictions are in place:

- **Outdoor Watering Season: May 15 – Sept. 15**
- **Water allocations reduced by 20%**

We kindly ask all residents to conserve water whenever possible and use water efficiently throughout the season.

Responsible Water Use

"No Watering Between 10 A.M. and 6 P.M." and we recommend observing the following water schedules:

- May 15th - June 15th – No more than two days per week.
- June 16th - Aug. 31st – No more than three days per week.
- Sept. 1st - Seasons End - No more than two days per week.

Communication Tools

You can connect with Bountiful Irrigation through text, email, or web chat!

If you have not done so previously, please update your contact information by doing one of the following:

Scan the QR Code:

Text: (801) 790-4685

Call: (801) 295-5573

Email: support@bountifulirrigation.yopp.fyi

Visit: www.bountifulirrigation.gov and click on the blue circle in the bottom right hand corner.

(When submitting via text or email, please provide your name and address so we can correctly attach the information.)

Secondary Water Meters

We are currently completing Phase 4 of our meter installation project and will continue installations year-round, with completion expected before the end of 2026. Property owners will receive a door hanger prior to meter installation at their property.

For residents, **east of I-15**, who had a meter installed during this off-season, the customer Main Control Valve (MCV) was left in the off position. When you are ready to begin using water this year, we ask that you turn this valve on. This gives each resident the opportunity to become familiar with how the valve works and where it is located.

Please scan the QR code or visit bountifulirrigation.gov to view an informational flyer with instructions and tips for your new valve.

Coming Soon: Customer Portal

Monitor your water use, set alerts, check for rebates and view your allocation — all in one place!

Get ready now by creating an account at mywaterutah.org

East of I-15: Watch for upcoming information on how to link your account to your water meter.

West of I-15: Contact Weber Basin for Portal Information
